

At the heart of
critical healthcare
infrastructure.

Benefit from IT expertise and solutions backed by over 40 years of experience at the core of healthcare infrastructure.

What sets LGI apart is our collaborative culture and deep understanding of healthcare operations. We work closely with healthcare organizations to equip care teams and administrators with intuitive tools that simplify both clinical and administrative workflows.

320K healthcare users

3K+ sites increased performance

6M patients supported

Explore our rich and comprehensive portfolio.

While proudly rooted in Canada,
our solutions are now used
internationally to support essential,
high-impact healthcare delivery.

● Human Capital Solutions

LGI Workforce Pro

Harmonize human resources, scheduling and payroll to improve compliance with collective agreements and overall operational flow.

2.8M pays processed per year

24K shifts scheduled each day

LGI Education (MedSIS 3C)

Centralize the management of training in health sciences from admission to graduation, including registration and assessments.

1M evaluations processed annually

160K+ rotations and placements per year

LGI Payroll (Espresso)

Facilitate hiring, training and payroll management processes via an online portal that promotes autonomy and development opportunities.

7.3M pays processed per year

230K active employees

● Clinical Solutions

LGI eClinibase

Increase patient care pathway visibility and reduce wait times by sharing information on each episode of care more efficiently.

87%

reduction in overtime caused by delays

12M

appointments managed each year

LGI Radimage

Automate the transcription, compilation, and transmission of medical imaging data by connecting to various systems in place.

8M

exams simplified every year

60+

healthcare facilities use the solution

“It is always a pleasure to work with [LGI Healthcare Solutions’] team. Their staff always answers questions quickly and follows up to ensure the products work according to our needs.”

Esther Briand

Medical Archives and Appointment Control Centre Coordinator, CISSS de Laval

● Emergency Solutions

LGI Emergency Redirection

Help triage professionals identify patients with non-urgent conditions that can be referred to partner clinics.

15% of ambulatory patients are redirected

28% reduction in emergency room wait times

LGI Assignations (Strom)

Promote equitable and efficient distribution of emergency personnel to ensure responsive, quality care.

- Real-time view of staff distribution
- Multi-platform web application: computer, tablet or phone

“Proper recording of the staff’s time in and out will give us accountability in addition to reducing the time wasted by nursing staff trying to find replacements.”

Gilles Verrier

Interim Executive Director, Lions Housing Centres
LGI Workforce Pro user

“The patients we see are happy to get access to timely, relevant care.”

Dr Gilles Raymond

General Practitioner, l'Isle-d'Espagna
LGI Emergency Redirection user

● Financial Solutions

LGI Financial (FMS)

Optimize financial workflows and strategies with up-to-date data and customizable reports.

60% of receipts processed electronically

\$23B processed annually

LGI Supply Chain (MMS)

Automate part of the procure-to-pay and plan-to-inventory process to better manage costs and maximize resource utilization.

93% of transactions processed electronically, without human intervention

80% of purchase orders transmitted electronically

“Adding the IMMO and GP modules to [LGI Supply Chain] has changed our daily lives for the better, particularly regarding fixed asset monitoring, depreciation management and data manipulation to complete page 415-00. The tool is simple to understand, easy to use, fast and reliable.”

Roby Deblois, CPA

Executive Advisor, Budget, Productivity and Fixed Asset Financial Management,
Financial Resources and Contract Management Directorate, CISSS de Chaudière-Appalaches

The Canadian partner you can trust for healthcare digital transformation.

With LGI Healthcare Solutions, healthcare organizations invest not only in 100% Canadian solutions that deliver measurable results, but also in a trusted partner, one defined by a commitment to white-glove service, decades of experience in addressing dynamic market changes, and the ongoing delivery of guidance, updates, and best practices.

Knowing the needs

We take the time to understand the requirements of our customers, ensuring the solution is tailored to their challenges.

Crafting a clear plan

We establish a project that makes sense for their team, including deciding how to transfer or maintain historical data.

Perfecting the solution

With the customer's input, we configure the platform and test every interface—ensuring everything is optimized and ready to go.

Going live

We guide the customer through the go-live phase, offering end-user training and supporting super users with onboarding.

Supporting success

We actively monitor deployment progress, provide hands-on support, and remain available whenever they need us.
