

LGI Workforce Pro

Payroll integration

Efficient workforce management relies on comprehensive payroll integration — one of six essential components in a turnkey healthcare HRIS solution to streamline operations and empower your teams to deliver exceptional patient care:

Automated
scheduling

Payroll
integration

Human
resources

Talent
management

Time and
attendance

Employee
self-services

Deliver timely, reliable, and accurate payroll to your staff.

The payroll module in LGI Workforce Pro automates the administration of payroll processing and gives managers access to critical date-sensitive information — helping to maximize the control, cost and time of processing. The module has been specifically designed to handle the real-world needs of multi-agreement, multi-location and multi-position payroll processing for Canadian healthcare organizations.

Store all employee data and salary information, manage pay cycles, process special pay and generate ad hoc reporting.

Manage retroactive payments and split position processing with ease.

Allow users to quickly implement and manage direct deposit to multiple bank accounts.

Modify payment processing by individual, group or all employees.

Apply different tax methods to different earnings for single cheques.

Provide flexible, automated benefits, compensation and pension administration.

Benefits

- Reduce administration time and provide more time to focus on other areas
- Capture and limit payroll errors before issuing bank EFTs
- Eliminate service provider fees and third-party interface costs
- Support decisions with online and customizable reporting for labour costing, distribution and analysis
- Respect MIS reporting requirements with configurable accounting structure
