LGI EDUCATION

Elevate the complete journey of nurse education for learners, educators, and administrators.

70K learners, administrators and health professionals use the solution

+160K rotations and placements per year

1M evaluations processed annually

LGI Education (MedSIS 3C) is a cloud-based learner assessment platform that provides a roadmap to excellence for healthcare facilities and education institutions.

LEARNERS

Medical, nursing, pharmacy, health professionals, etc.

Frequent, relevant and mobile-friendly feedback.

EDUCATORS

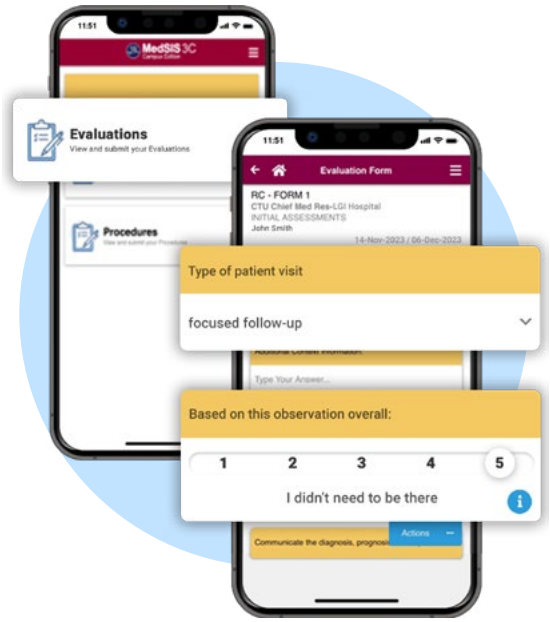
Faculty, practicum supervisors, preceptors, evaluation committees, etc.

Simplified evaluations with customizable forms and templates.

ADMINISTRATORS

Supervisors, administrative staff, program directors, deans, associate deans, etc.

Dashboards, charts and graphs for enhanced analytics.



Support the nursing educational journey with a scalable solution that aligns with your needs. Begin with a single module and seamlessly expand to encompass every stage, — from admission to graduation — as your institution evolves.

ADMISSION

Process applications, communicate with applicants, and plan interview schedules efficiently to simplify the admissions journey.

REGISTRATION

Track requirement statuses and receive timely reminders to keep both your team and learners informed.

SCHEDULING

Build academic and clinical schedules with a user-friendly drag-and-drop interface.

EVALUATION

Trigger evaluations effortlessly, complete forms accurately, and stay connected with real-time assessments that can be viewed on mobile devices.

PROOF

- **DASHBOARDS AND REPORTING**

  Effortlessly maintain data accuracy with dashboards, charts and graphs for research purposes and enhanced analytics.

- **CURRICULUM MAPPING**

  Customize your curriculum with real-time collaboration tools, interactive timelines, maps, and reports.

- **COMPETENCY-BASED EDUCATION**

  Build a curriculum that aligns with the competency-based education (CBE) framework.
