

LGI SCHEDULING

Gain more control over your schedules, reduce your costs, and empower your teams

+ 24 K shifts scheduled each day in Canada

80% of customers reduced overtime

11% average cost reduction

LGI Scheduling simplifies the scheduling process for frontline workers and healthcare executives through automation and notifications.

EMPLOYEES

More control over schedules and improved work-life balance

- Autonomous shift exchanges and giveaways with colleagues
- Schedules that consider leave requests submitted through self-service features
- Real-time schedules accessible on mobile 24/7

SCHEDULERS

Faster schedule creation and easier last-minute changes management

- Master templates with flexible tools that automate schedule creation
- Automated shift callout with mobile notifications and voice messages to reach out to many employees at once
- Allocation and replacements of shifts based on collective agreement rules, unit guidelines, skills and more

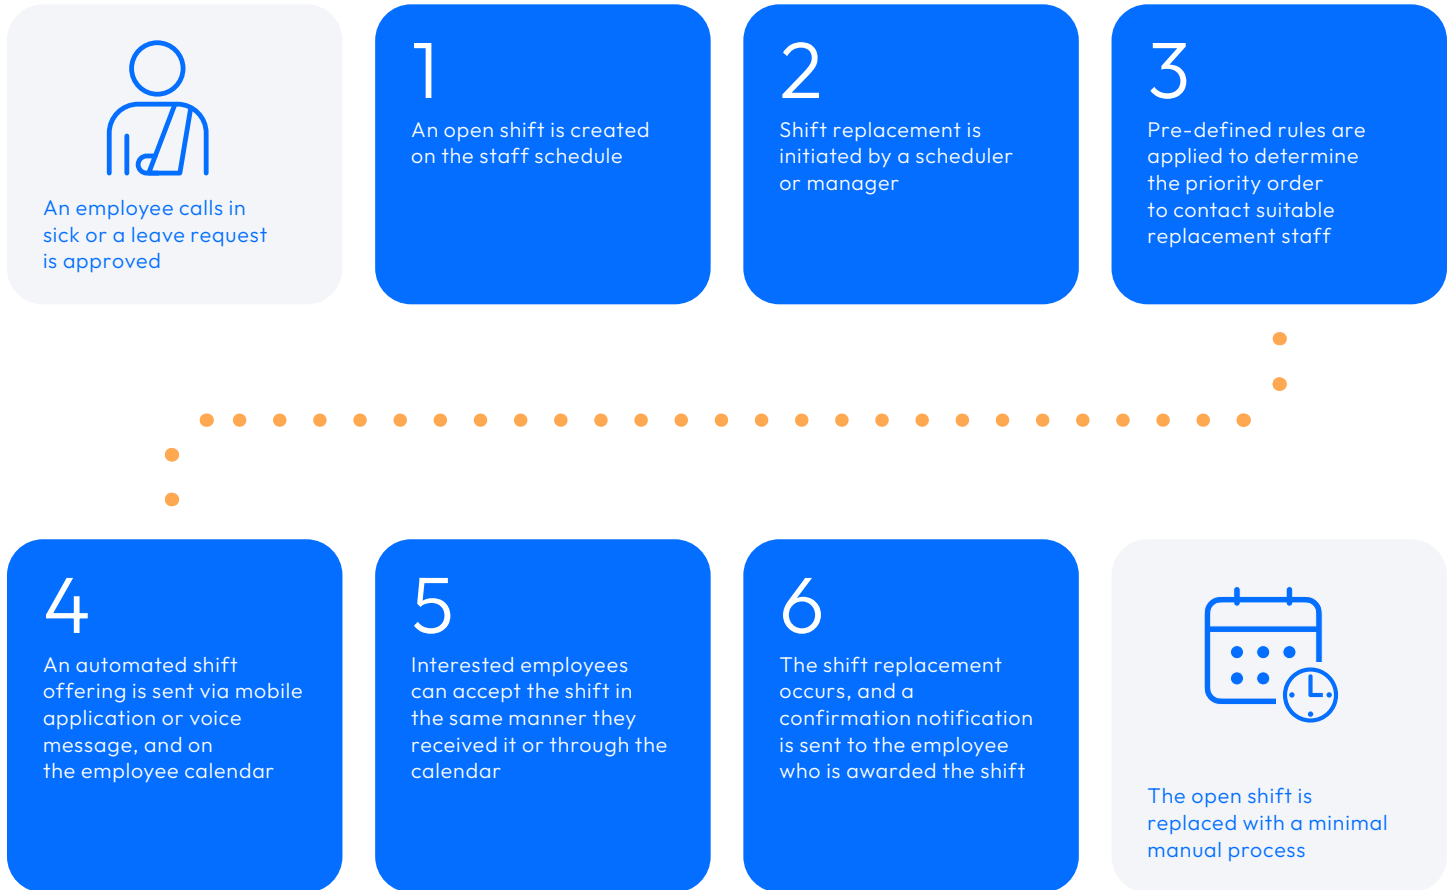

MANAGERS

Accurate data on attendance, costs and variance from budgeted hours

- Devices that capture employee clock in and out times, and transfer the data to payroll
- Reports and analytics on real-time workforce data, including agency resources tracking
- Highlighting of variances from the budgeted position hours

Facilitate the process of shift replacement with the Automated Shift Callout feature
